

# Inter® Formaldehyde

## PRODUCT INFORMATION SHEET

Suitable for use in the following environments:

## Inter Formaldehyde

Ideal for disinfecting all types of animal housing, cages and surfaces within buildings e.g. walls, floors, equipment, appliances, transport boxes, cages, kennels and quarantine areas.

**ACTIVE INGREDIENTS:** 1kg of the liquid concentrate contains 370g formaldehyde. Contains ≤1% methanol.

### Instructions for use and dosage:

#### ♦ Fogging:

20ml INTER FORMALDEHYDE/m<sup>3</sup> volume.  
Delivered through suitable Fogging Equipment.  
(INTERFOG® is recommended to stabilize the FOG)

#### ♦ Spraying:

Mix between 0.5 – 2 litres of INTER FORMALDEHYDE with 100 litres water (0.5% - 2% solution).  
Apply ready-to-use-solution at an application rate of 200ml/m<sup>2</sup>.

#### ♦ Hoof bath:

5% dilution. Clean hooves in advance, the dilution will suffice for the treatment of approx. 60 cows.

**German registration: Baua-Reg.-Nr.:N-43977 (PT3)**

### The efficacy was confirmed by independent experts:

Spectrum	Test method	Concentration
Viruses (Ecbo)	EN 14675/low load/20°C EN 14675/high load/20°C EN 14675/low load/10°C EN 14675/high load/10°C	0.5 % 0.75 % 0.75 % 1.0 %
Bacteria (Staphylococcus aureus)	EN 1656/low load/20°C EN 1656/high load/20°C	2.0 % 2.0 %
Fungi (yeasts) (Candida albicans)	EN 1657/low load/10°C EN 1657/high load/10°C	2.0 % 2.0 %

# Inter® Formaldehyde

## PRODUCT INFORMATION SHEET

Suitable for use in the following environments:

### Active substance according to Article 95 list (PT3)

#### Hazardous advice for the concentrate:

Labelled with the symbols: GHS05, GHS06, GHS08 / signal word: DANGER  
H-phrases: H301+H311, H314, H317, H330, H335, H341, H350.

#### Storage and disposal:

Transport and store canisters upright. The storage temperature must not fall below +10 °C.  
Packaging must not be reused or returned. Once empty, the container can be recycled.

#### Danger for the environment:

Do not allow product to enter the sewerage system / surface water / ground water.  
Do not allow the product to enter the subsoil / soil.

When using/working with concentrated disinfectants do not eat, drink or smoke. Avoid contact with eyes skin and clothing. Wear the recommended protective clothing and equipment -see below:  
Wash hands after work.

Breathing protection	Full face mask, filter AX-P2, or A2-B2-P2
Hand protection	Protective rubber gloves e.g. Nitril
Eye protection	Glasses with side protection, or Basket eye glasses

**Use Biocides Safely.  
Always read the label and product information before use!**

#### Pack sizes:

25/30kg and 1000kg
